Amendments to the Claims

The listing of claims presented below replaces all prior versions, and listings, of claims in the application.

Listing of claims:

1. (currently amended) A method for preparation of a sample ~~which is while being~~ drawn through a hollow needle into a syringe, especially for extraction and enrichment of a volatile component from a liquid, solid or gaseous sample for subsequent introduction into an analytical device, ~~for example a gas chromatograph,~~ whereby for extraction of an analyte of interest the sample is flushed through a stationary phase located between the hollow needle and the syringe and having ~~[[with]]~~ an increased volume compared to the interior of the needle.

2. (currently) A device for carrying out the method as claimed in claim 1, comprising a syringe, and a hollow needle connected to ~~[[the]]~~ a syringe body, wherein, between the needle and the syringe body, a chamber is provided which is wider than the cross section of the needle and in which an extraction material is located.

3. (previously presented) The device as claimed in claim 2, wherein the chamber is provided with a means for heating.
